

Self-Tan with Anti-Cellulite

Available as Retail Range

The Fake Bake Lipo Range consists of two unique lotions - a specialised self-tan and gradual tan for more regular use. They both contain the naturally derived, premium tanning agents DHA and Erythulose, but in different concentrations. The Premium DHA interacts with the amino acids which lie in the top layers of your skin (the stratum corneum) to develop rapidly into a tan that compliments your skin tones. Erythulose develops the tan more slowly for longer lasting results. When combined, these tanning agents work together to reduce streaking and miscolouring for a natural looking tan. They also make your tan fade perfectly evenly for a continuously natural appearance.

Fake Bake Lipo lotions contain:

Potent Lipocare by Sederma which accelerates lipid release from fatty storage and combats the appearance of 'orange peel' skin while Rigin by Sederma firms skin and promotes elasticity when used daily.

Self-Tan with Anti-Cellulite

Available as Retail Range

Self-Tan

Lipo Bronze SELF-TAN with LIPOCARE

Fake Bake Lipo Bronze Self-Tan is a full-strength self-tan with added anti-cellulite properties. Potent Lipocare by Sederma accelerates lipid release from fatty storage and combats the appearance of 'orange peel' skin while Rigin by Sederma firms skin and promotes elasticity when used regularly. Contains 'show where it goes' cosmetic colour guide that enables you to apply your self-tan with ease and confidence. Naturally derived tanning agents DHA and Erythulose build a natural looking golden tan. If you desire a darker tan, Fake Bake Lipo Bronze Self-Tan Lotion can be reapplied over consecutive days, however one application is usually enough.

Suitable For: Skin Types - Oily, Normal, Dry

Skin Tones - Medium, Dark

People with moderate Cellulite

Gradual-Tan

Lipo Glow DAILY MOISTURISER with LIPOCARE

Fake Bake Lipo Glow Daily Moisturiser is an intense hydrating gradual tan with added anti-cellulite properties. Lipocare by Sederma accelerates lipid release from fatty storage and combats the appearance of 'orange peel' skin while Rigin by Sederma firms skin and promotes elasticity when used daily. Contains no cosmetic colour guide and low levels of the naturally derived tanning agents DHA and Erythulose to gradually build a natural looking summer glow. Ideal for combating more obvious cellulite.

Suitable For: Skin Types - Oily, Normal, Dry

Skin Tones - Fair, Medium, Dark

People with more obvious cellulite
